# Tobacco Stocks Report

as of

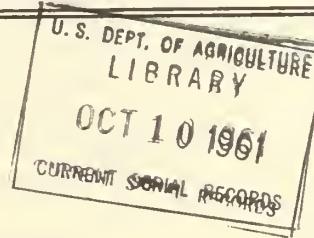

April 1, 1961

U. S. DEPARTMENT OF AGRICULTURE  
AGRICULTURAL MARKETING SERVICE  
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Agricultural Marketing Service.

Stephen E. Wrather  
Director, Tobacco Division.

Washington, D. C.  
May 16, 1961

## BRIEF CLASSIFICATION OF LEAF TOBACCO

(Covering classes and types)

### CLASS 1, FLUE-CURED TYPES

- Type 11: Old Belt flue-cured; produced in the Piedmont sections of Virginia and North Carolina.  
Type 12: Eastern North Carolina flue-cured; produced in the coastal sections of North Carolina, north of the South River.  
Type 13: South Carolina flue-cured; produced in the coastal sections of South Carolina and the southeastern counties of North Carolina, south of the South River.  
Type 14: Georgia and Florida flue-cured; produced in southern Georgia and northern Florida.

### CLASS 2, FIRE-CURED TYPES

- Type 21: Virginia fire-cured; produced in the Piedmont and mountain sections of Virginia.  
Type 22: Tennessee-Kentucky fire-cured, eastern district, Clarksville, Springfield, and Hopkinsville; produced in a section east of the Tennessee River, in southern Kentucky and northern Tennessee.  
Type 23: Kentucky-Tennessee fire-cured, western district, Mayfield, and Murray; produced in a section between the Tennessee, Ohio, and Mississippi rivers in western Kentucky and northwestern Tennessee.

### CLASS 3, AIR-CURED TYPES

#### LIGHT AIR-CURED (CLASS 3a)

- Type 31: Burley; produced in Kentucky, Tennessee, Ohio, Indiana, West Virginia, Virginia, North Carolina, and Missouri.  
Type 32: Southern Maryland; produced in five counties of southern Maryland--Prince Georges, Anne Arundel, Calvert, Charles, and St. Marys.

#### DARK AIR-CURED (CLASS 3b)

- Type 35: One Sucker; produced in north-central Tennessee and south-central Kentucky.  
Type 36: Green River; produced in the northern part of Kentucky in the territory adjacent to Owensboro and Henderson.  
Type 37: Virginia sun-cured; produced in central Virginia, north of the James River.

### CLASS 4, CIGAR-FILLER TYPES

- Type 41: Pennsylvania Seedleaf; produced in Lancaster County, Pa., and the adjoining counties.  
Type 42-44: Ohio filler; produced in the Miami Valley section of Ohio and extending into Indiana.  
Type 46: Puerto Rican sun-grown, including primed (Deshojado) and stalk-cut (Mata); produced on the Island of Puerto Rico.

### CLASS 5, CIGAR-BINDER TYPES

- Type 51: Connecticut Broadleaf; produced in the Connecticut Valley sections of Connecticut and Massachusetts.  
Type 52: Connecticut Havana Seed; produced in the Connecticut and Housatonic Valley sections of Connecticut and Massachusetts.  
Type 53: New York and Pennsylvania Havana Seed; produced in the Big Flats and Onondaga sections of New York, and extending into Pennsylvania.  
Type 54: Southern Wisconsin; produced in Wisconsin, south and east of the Wisconsin River.  
Type 55: Northern Wisconsin; produced in Wisconsin, north and west of the Wisconsin River, and in eastern Minnesota.

### CLASS 6, CIGAR-WRAPPER TYPES

- Type 61: Connecticut Shade; produced in the Connecticut Valley sections of Connecticut and Massachusetts.  
Type 62: Georgia and Florida Shade; produced in southwestern Georgia and north-central Florida.

### MISCELLANEOUS TYPES OF DOMESTIC TOBACCO

- Type 72: Louisiana Perique.  
Type 73: All domestic types of tobacco not otherwise classified.  
Type 77: Domestic Aromatic.

### FOREIGN TYPES

- Type 81: Cuba (Havana).  
Type 82: Sumatra and Java.  
Type 83: Philippine Islands (Manila).  
Type 84: All foreign-grown cigar-leaf not otherwise classified.  
Type 90: Foreign-grown cigarette and smoking tobacco (Turkish and other).

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total leaf tobacco stocks down from April 1 a year ago

Stocks of leaf tobacco in the United States and Puerto Rico totaled 4,670 million pounds (farm-sales-weight) as of April 1, 1961, based on the regular quarterly reports of dealers and manufacturers. This is 24 million pounds, or 0.5 percent, less than the April 1 figure a year ago (4,694 million). It marks a further reduction in overall leaf stocks, and inventories are now about 540 million pounds below the record level for this quarter (5,207 million on April 1, 1957). The 1960 crop of about 1,972 million pounds was in stocks as of April 1, with the exception of around 52 million made up mainly of Maryland and Puerto Rican types. About 247 million pounds were marketed during the quarter.

Stocks of flue-cured leaf were slightly higher than a year earlier. Holdings of shade-grown were also up, but stocks of most other domestic-grown tobaccos were slightly lower than on the previous April 1. Stocks of imported cigar leaf and cigarette leaf were each at record high levels.

Stocks as of April 1, 1961 included about 687 million pounds (farm-sales-weight) of leaf tobacco under Government loans (778 million on April 1, 1960, and 1,025 million on April 1, 1959). These loan stocks were divided as follows: flue-cured, 519 million pounds; burley, 90 million; Maryland, 3.2 million; fire-cured, 37.1 million; dark air-cured, 19.1 million; and cigar leaf 18.5 million.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

#### CIGARETTE-LEAF STOCKS

Inventories of flue-cured slightly higher than on last April 1

Burley and Maryland stocks smaller

Stocks of foreign-grown cigarette leaf at record level

Flue-cured stocks totaled 2,364 million pounds as of April 1, 1961, an increase of 19 million from holdings a year earlier (2,345 million). The crop of 1960, totaling 1,250 million pounds, was 15 percent larger than the one grown in 1959 (1,081 million). Sales of 1960 crop of flue-cured were completed prior to January 1, 1961.

Inventories of burley were reported at 1,405 million pounds on this April 1--56 million less than holdings on the same date a year ago (1,461 million). Sales during the first quarter totaled about 96 million pounds, the amount of the 1960 crop of 481 million left to be sold after the Christmas holidays.

Maryland holdings as of the April 1 reporting date were 53.0 million pounds--4.0 million smaller than the amount held a year earlier (57.0 million). The 1960 crop, estimated at 32.8 million pounds, will be marketed during the May-July period this year.

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 254.7 million pounds--21.9 million over the figure reported the previous April 1 (232.8 million), and the largest holdings of imported cigarette leaf as of April 1 on record.

#### DARK TOBACCO STOCKS

Fire-cured inventories 5 percent lower than on April 1, 1960

Dark air-cured down about 6 percent

Fire-cured stocks, reported at 135.0 million pounds on April 1, 1961, were 7.1 million under those reported on last April 1 (142.1 million). Decreases were reported in all types. Marketings of the 1960 crop, completed during the first quarter, totaled 45.3 million pounds, a decrease of nearly 8 million pounds from sales of the 1959 crop (53 million). About 42 million pounds were sold in the January-March quarter. Virginia fire-cured stocks on this April 1 were 24.3 million pounds, Kentucky and Tennessee Eastern District, 88.5 million and Western District 22.2 million.

Holdings of dark air-cured, totaling 74.0 million pounds on April 1, 1960, were 4.9 million smaller than stocks on hand a year ago (78.9 million). Decreases were reported in all types. Sales of the 1960 crop, totaling 19.9 million pounds, were completed during the quarter, and were 1.6 million smaller than last year's sales (21.5 million). Of the total, about 13 million was sold in the January-March period. Inventories of dark air-cured as of April 1, 1961, by types, were as follows: One Sucker, 45.9 million pounds; Green River, 22.1 million; and Virginia sun-cured, 6.0 million.

## CIGAR LEAF STOCKS

### Holdings of domestic cigar leaf smaller than a year ago Foreign-grown cigar leaf stocks at record level

Inventories of all domestic-grown cigar tobacco, including Puerto Rican, totaled 313.1 million pounds (farm-sales-weight) on April 1, 1961. This was a decrease of 7.5 million pounds compared with stocks reported on last April 1 (320.6 million). Except for part of the 1960-61 Puerto Rican filler crop and some Wisconsin tobacco, all of the 1960 cigar-leaf production of 140.0 million pounds was in stocks by this April 1. Holdings of foreign-grown cigar leaf were 68.4 million pounds (unstemmed equivalent), an increase of more than 15 million over stocks reported on April 1 the previous year (53.1 million), and the largest holdings of imported cigar leaf as of April 1 on record.

Holdings of cigar-filler types as of April 1, 1961, totaled 196.7 million pounds--3.6 million smaller than the figure reported on last April 1 (200.3 million). Stocks of the Pennsylvania and Ohio types were slightly higher and those of Puerto Rican lower than those reported a year ago. Cigar-filler leaf inventories, by types, on April 1, 1961, were as follows: Pennsylvania filler, 130.8 million pounds; Ohio, 21.4 million; and Puerto Rican, 44.5 million.

Cigar-binder stocks totaled 86.8 million pounds on April 1, 1961--a decrease of 7.3 million from inventories reported a year earlier (94.1 million). Southern Wisconsin stocks were about  $3\frac{1}{2}$  million lower and the other binder types each a little over a million down from a year ago. Connecticut Valley Broadleaf stocks this April 1 were 19.9 million pounds; Connecticut Valley Havana Seed, 13.8 million; Southern Wisconsin, 23.1 million; and Northern Wisconsin, 30.0 million.

Shade-grown cigar leaf stocks of 29.6 million pounds were 3.3 million more than those reported last year (26.3 million). Stocks of both types were higher. As of April 1, 1961, holdings of Connecticut Valley Shade were 18.0 million pounds; and of Georgia-Florida Shade, 11.6 million.

Stocks of Cuban (Havana) leaf, reported at 42.2 million pounds were up more than 6 million over last year and at a record high level. Sumatra leaf holdings were 1 million pounds, the largest in 14 years; and Philippine Islands (Manila) stocks totaled 14.5 million, nearly 2 million more than those on hand a year ago.

### LEAF REPRESENTED IN STOCKS OF TOBACCO SHEET (see table 4)

### Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 6.9 million pounds (reporting weight) compared with 6.2 million on the previous April 1. Of the total in "tobacco sheet" this April 1, 4.7 million pounds was for use in cigarettes and smoking tobacco, and 2.2 million for cigar binder including a very small quantity for wrappers.

Table 1.-Average percentage of weight remaining after handling, sweating, drying, and stemming, and factors used for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco <sup>1/</sup>

<sup>1/</sup> Based on information from U. S. Department of Agriculture Circular 435, Tobacco Shrinkages and Losses in Weight in Handling and Storage, issued in July 1937. <sup>2/</sup> Factors for converting unstemmed stocks to farm-sales weight are adjusted on the basis of an average loss on the reported weight and should not be taken as indicative of full shrinkage after handling, sweating, and storage. <sup>3/</sup> See footnote 2 on page 7 for conversion factors to farm-sales-weight equivalent for cigar leaf except Type 46. <sup>4/</sup> Foreign-grown stocks not converted to farm-sales-weight equivalent.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, April 1, 1961, compared with other quarters <sup>1/2</sup>

Total All Types	11-90	4,670,275	4,693,923	4,827,409	4,784,134	4,476,270	4,338,780

<sup>1/</sup> Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

<sup>2/</sup> For factor used in converting weights see table 1 except for cigar leaf. The instructions for reporting unstemmed cigar-leaf of the domestic types require dealers and manufacturers to indicate the weight basis on which the tobacco is reported, namely farm-sales weight, marked weight, or sweat weight. The stocks are converted to the farm-sales-weight equivalent on the basis of the amount reported in these three categories. The conversion factors by types of tobacco for April 1, 1961 are as follows: Type 41, 105; Types 42-44, 111; Type 51, 104; Type 52, 105; Type 54, 105; Type 55, 104; Type 61, 109; Type 62, 113. April 1, 1961 figures subject to revision.

<sup>3/</sup> For explanation of stocks included in this classification, see footnote 5 on page 11.

<sup>4/</sup> Foreign-grown leaf is converted to an unstemmed equivalent basis only.

Table 3.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, April 1, 1961 compared with April 1, 1960, and January 1, 1961

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet.

2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46.

5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

6/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.

Table 4.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

						1,101,144
						1,388,959

<sup>1/</sup> Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

<sup>2/</sup> These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

<sup>3/</sup> This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealer holdings.

<sup>4/</sup> Includes stocks on the Island of Puerto Rico.

<sup>5/</sup> For explanation of stocks included in this classification see footnote 5 on page 11.

Table 6.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, April 1, 1961 compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 3 and 4.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1960, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 11.

5/ Does not include Sumatra and Java leaf held for sale in the Free Trade Zone.
